EMPOWER AND ENERGISE
YOUR STAFF SO YOU CAN
TAKE YOUR BUSINESS TO
THE NEXT LEVEL

NEXT LEVEL RETREAT

by SOL Results

Formula for success

Is your business primed for success? Are you, your staff and colleagues on the same page, operating as a cohesive unit committed to seeing the business flourish or is everyone operating on autopilot?

Is there a corporate culture that encourages **personal well-being** and **success** or is it every individual for themselves?

What if you could find a way to unify and empower all stakeholders with the ability to achieve success for themselves and the business?

What if their success became your success and vice versa?

How different would your business look if all individuals were empowered and equipped with the tools to turn visions into plans, and plans into results?

How would the business culture change if your teams could positively transform every area of their lives?

How would it feel if your entire corporation were operating from a position where health, success, relationships to self and others, productivity, wealth, happiness, work-life balance, fulfilment, and energy was at optimal capacity?

It is possible.

SOL Results can assist in making it a reality.

For many years, our coaching have been using science-based tools to successfully guide corporate teams on transformative journeys where exceptional results become the norm.

Enrol your team today in our two-day intensive NEXT LEVEL RETREAT where, away from daily life, our highly skilled practitioners and performance coaches will focus on rewiring the brain through NLP (neurolinguistic programming).

It is now a commonly accepted scientific fact that the brain is neuroplastic. What that means is that with growth, reorganisation and practice, the brain is able to create new neural pathways and connections and can be rewired for success.

In our NEXT LEVEL RETREAT, participants will be guided through several processes designed to analyse, identify and deprogram unhelpful behaviours and patterns of thinking that have become habituated over time.

Our experienced performance coaches will lead the attendees through a series of exercises and activities that will give participants the tools to replace negative patterns with positive patterns so they can create a measurable action plan for success that can be lived daily in all areas of their life.

Are you ready to take your business to the Next Level?

Do you want to reward your team, improve staff relations, increase productivity and wealth creation for all while also supporting the personal growth of the individual?

If you want your staff to work smarter, not harder, then Next Level retreat is a must for your business.

What awaits is more:

- Wealth
- Energy
- Strength
- Control
- Fulfilment
- Balance
- Peace
- Vitality
- Success

In two immersive days, participants will learn how to harness the power of their mind to create a more powerful and fulfilling life.

They will learn the secret that successful people already know:

Success is not usually a matter of chance. It is a deliberate series of decisions backed by action.

Next Level Retreat has been designed to fast track your corporate team on the road to success and fulfillment. We take the guesswork, and trial and error out of the equation.

There is a simple formula for success, and it is available for all.

On this retreat, participants will learn simple, powerful strategies that successful people rely on to create more success in their lives. They will learn how to tackle and remove blocks in their life and replace them with positive action designed to keep them powering forward.

Imagine how your business or corporation could be transformed if your executive teams and staff members were able to re-script their stories, positively alter their perspective, and re-channel their energy into actions that empowered and united them.

Empowering employees empowers your business.

It leads to positive relationships amongst staff, improved channels of communication, higher levels of trust – upwards, downwards, and laterally, and a unified team focussed on success.

In a corporate world, the culture within the business stems from the individuals within the organisation.

The culture of the business affects every aspect of the business, either positively or negatively.

If the members of the organisation have a major shift in their perspective, a massive upgrade in their beliefs about their ability to achieve, and they are equipped with the knowledge and tools needed to effect positive change, it follows that there will be a substantial shift in actions and results for the entire organisation.

Take your business to the next level by enrolling your team today

1

Unlock the power of the mind

Science tells us that the subconscious mind is more powerful than the conscious mind. It can support or sabotage every area of an individual's life without them even realising.

At the Next Level Retreat, team members will explore their subconscious mind. They will instantly see why they have been getting the results they have, how their life has been perfectly created to fit with their subconscious thinking, and most importantly, how they can re-program their mind to get more of what they want in life and less of what they don't.

2

Harmonising and energising the body to create positive change

Science proves the body and mind are connected. In some ways the connection is obvious – it's easier to feel great mentally when you feel good physically. In other ways, the connection is not as obvious, but it is just as significant.

The way an individual sits, walks and stands can impact their mind. Certain triggers in the body can elicit certain thoughts, either positive or negative. And although the mind-body connection works the other way around too (thoughts can affect body chemistry), one of the easiest ways to create positive change in life is to start by changing physiology.

3

Realising full potential & purpose

Life is meant to be exciting. Sure, there are things that no one enjoys doing that need to be done, but even these things become easier when there is a greater purpose and a sense of deep fulfilment in living.

Sadly, as Henry David Thoreau observed that most people lead lives of quiet desperation and go to the grave with the song still in them. Everyone has a song within them and when it comes to purpose and fulfilment, it is this song that we each need to find, honour and express.

How to...

Overcome Obstacles

At the Next Level Retreat, participants will discover how they can break free from the long-standing problems, fears, pressures, lack of energy or enthusiasm, indecision, and people related issues that keep them from living the life they want.

Using powerful, science-based coaching tools, they will be armed with a host of new strategies and information that will give them more control and choices in their life, leading to higher levels of fulfilment, harmony, commitment and engagement in the business environment which, in turn, will lead to improved efficiency and productivity, and maximised results for all stakeholders.

KIND WORDS FROM PAST ATTENDEES

"ETERNALLY GRATEFUL"

"What an awesome weekend! Thank you so much for the knowledge, guidance, and motivation you instilled in our minds. Linda and I have benefited immensely from this experience and feel confident to utilise this knowledge to achieve successful outcomes with our newly defined goals. Our journey through life will now be enriched with gratitude, better nutrition, positive values and beliefs, and higher energy states. You have boosted our self esteem. You have a gift which is evident by the energy we feel in your presence. Eternally grateful."

Domenic and Linda P

"THIS WAS ONE OF THE MOST UNFORGETTABLE LIFE EXPERIENCES FOR ME"

"I would like to thank all of you for providing an amazing workshop. I really enjoyed the fun, the activities, the warm welcome from all of you and the friendly environment from all the people who attended the workshop. So far, I really enjoy practicing every morning, the breathing, positive self-talk and gratitude that I learnt from your workshop. These simple exercises do make a huge difference in how I feel and enjoy my everyday life. Beside these, all other materials that you taught us during the workshop will become powerful tools to achieve the power of the mind. This was one of the most unforgettable life experiences for me. Thank you."

Diep L

"I HIGHLY RECOMMEND ANYONE LOOKING TO TAKE BACK CONTROL OF THEIR LIFE"

"I highly recommend anyone looking to take back control of their life to attend the Next Level Retreat. As a husband, a father and an executive it was liberating and energising to learn and understand that life doesn't have to be a struggle and you can take control of every area of your life and destiny including your family life, health, personal wealth and career. Thank you Stan, Peter, Manuel and John for teaching me the skills to take my life to the next level."

Todd D

"IT IS SO HELPFUL TO BE ABLE TO ASK QUESTIONS AND HAVE DISCUSSIONS WITH THE LEADERS"

"I feel so blessed to have attended The Next Level Retreat with Peter, Stan, John and Manuel. They are not only amazing leaders who live what they teach but they are people who truly care about others."

I attended Tony Robbins' Unleash the Power Within previously and while I loved the event, there were a number of what I felt were key points which were covered at The Next Level workshop which weren't touched on at UPW. In addition, it is so helpful to be able to ask questions and have discussions with the leaders during the workshop which is impossible in a large event such as UPW.

To complete the experience, Peter, Stan and Manuel made themselves available to us the following weekend so we could discuss any challenges which had arisen during the week and finely tune our goals, rules and values which we had worked on the previous weekend.

This follow-up was invaluable to me and has meant that I have not only heard about countless tools to use in shaping my life but most importantly I now feel confident that I know HOW to use them and have in fact already started making use of them!"
